Did you know ?

■ **In each region you can choose between several routes.** These itineraries are just suggestions to help you to plan your daily navigation. However, you may prefer to navigate a shorter distance one day, to allow you to spend more time at a particularly interesting site or attraction, and then cruising for longer the following day.

■ **A treat for fishermen!** Many of our suggested routes, including Ireland, the Mecklenburg lakes and several of the French rivers such as the Saone, the Somme, the Vilaine or the Mayenne are 'musts' for anglers, young or old. Our staff can give you more information and assist in obtaining the appropriate fishing licence.
