

# The Pénichette® ...

## ...a unique heritage

The distinctive Pénichette® fleet was designed exclusively for Locaboat Plaisance in 1977 and has been an enduring feature of Europe's waterways ever since. Today, the Pénichette® fleet numbers 400 boats operating in 6 countries. A continual program of modernisation ensures that the fleet offers the best in guest comfort while limiting impact on the natural environment.

■ Meanwhile, the whole fleet of Pénichettes® is equipped with 230 V plugs with a quayside connection. This will allow you to recharge your telephone, consult your e-mails, view your photos and use a hair-dryer. Also, all Pénichettes have a radio with CD player on board, some even have a MP3 player.

■ The Pénichettes® Aft-Deck P.1500R and P.1260R already are equipped with a bow thruster making them even easier to handle. We continue with the P.1120R, which already have a bow thruster in Germany in Ireland. We will now equip the boats in Alsace, Southern Burgundy, Saône and Holland.

■ Solar panels can already be seen on most of the Flying Bridge boats. We are systematically installing them on our boats. These panels contribute to a better power supply on board with full respect of the environment.

■ We continue step by step with the installation of electric toilets on our whole fleet. All Pénichettes Aft-Deck, the P.1500FB, P.1400FB, P.1180FB and P.1165FB are equipped with electric toilets in 2012.

■ Finally, you will find bath and kitchen towels as well as sheets and continental quilts already on board of all our boats, in all regions.

## The Pénichettes® "Classique"

They most closely resemble traditional canal barges but offer modern and well equipped interiors. Today, there are two types of "Classique" series:

- The "Traditional" with a green or plum coloured hull,
- The "W" with a white hull.

All Pénichettes Classique "W" have a bicycle rack on board. Other than exterior colour scheme, these boats are almost identical in design and equipment and offer a very competitive range of prices. However, the Pénichettes® "Tradition" are even a bit more favourable.
